Ronit Goldberg, PhD, CEO

Biochemical Product Developer

Liposphere, a young dynamic spin-off from the Weizmann Institute of Science, is seeking a skilled **biochemist/chemist** for the development of an ophthalmic product as part of a multinational project.

Liposphere has developed a **unique platform technology** of water-based, biocompatible unmatched lubricants for medical applications. The Company is active in the orthopaedic and ophthalmic sector focusing on the development of an intra-articular injectable to treat Osteoarthritis and a topical biolubricant for patients suffering from Dry Eye Syndrome. Liposphere is supported by the Israeli Innovation Authority.

Job description

The candidate will be responsible for co-developing and executing state-of-the-art formulation synthesis and analytical characterization for Liposphere's liposomal ophthalmic product. The candidate is expected to closely collaborate with Liposphere's R&D team. The candidate will be in charge of the daily operation of the analytical equipment.

Qualifications

The ideal candidate will have

- // Significant experience working in a relevant environment (formulation/product development) with a firm scientific and analytical background, Master or PhD in Chemistry/Biochemistry
- // Proven experience in method development, writing and maintaining SOPs, setting up protocols and training others to the highest level, instrument maintenance
- // Prior experience with liposomal formulations and/or tribological measurements of advantage
- // Proven experience in method development and instrument maintenance
- // Expertise/experience in de novo compound identification
- // Experience in interpretation of analytical data, DLS, NMR, MS
- // Experience working with biological in-vitro systems (cell assays)
- // Proven ability to work creatively in a team environment
- // Proactive attitude and a translational research drive
- // Strong oral and written skills in English
- // Enthusiasm, responsibility, team spirit and excellent collaboration skills.
- // Willingness to travel
